

# Degree Description

## University of Washington Bothell

### RN-BSN Program

#### Overview

**Program Focus:** UW Bothell's RN-BSN program is accredited as part of the University of Washington School of Nursing and awards a University of Washington degree. We combine the UW School of Nursing's acclaimed professional program with the University of Washington Bothell's well-rounded arts and sciences curriculum, building a foundation of knowledge in nursing science, humanities and social sciences, and related professional coursework. Critical thinking, decision making, and oral and written communications skills are emphasized.

**Possible Careers:** Nursing Director, Unit Manager in a hospital, Community Health Nurse, Public Health Nurse, Clinic Manager, Hospice Care Nurse, and more!

**Program Brag:** Courses in Everett are only one day a week and the program can be completed in 5 quarters. The Nursing Program at UW Bothell is committed to providing access. The program is based on an understanding that you are a practicing nurse who must balance professional and personal responsibilities with your educational pursuits.

**Applications accepted:** The Everett cohort only admits for autumn quarter. Our priority deadline is February 1.
